

Annapolis MD, Bel Air MD, Rockville MD, Springfield VA, Bethany Beach DE

Thank you for requesting a demonstration DVD and information packet from 5iveStar. We are recognized nationally as the leading videographer in the Baltimore/Washington area. We have always been committed to keeping our cameras and editing equipment on the leading edge of technology.

Jim Ratliff, President of 5iveStar Media Productions, previously served as the Production Director for C-Span (U.S. House of Representatives) for over eleven years. James Clifford is the Director/Producer for all U.S. Army Recruitment Advertising. James was instrumental in the creation and development of the new "Army Strong" television commercials. Ed Geisendaffer, the Vice President of 5iveStar Media Productions has been an instructor in videography techniques and lighting at the Defense Information School (DINFOS) on Fort Meade, Maryland for over 20 years. Mike Eaves, a lead videographer with 5iveStar Media Productions is a Studio Cameraman for WJZ in Baltimore during the week and shoots Weddings for 5iveStar on the weekends. Steve Young, Marketing Director and Lead Videographer, was recently named the Mid-Atlantic Region's "Best Videographer" by the Professional Videography Association (PVA). 5iveStar Media Productions has a staff of eight videographers and three editing suites.

We appreciate your inquiry and hope to hear from you in the future. If you have additional questions, please give us a call at: 443-910-0391 or 888-558-0424.

Blu-Ray Selection Form

(Required only when Blu-Ray-Option is selected on the Customer-Selection-Form)

Name of Bride: _____

Name of Groom: _____

Date of Wedding: _____

Package that you selected	Deluxe	Prestige	Regal
Number of edited copies included with package	Three	Three	Six
You request the following mix of Blu-Ray and/or DVD's from the number above			
Blu-Ray Copies _____			
DVD Copies _____			
* All free copies are produced on standard DVD			

We film with only High Definition(HD) cameras and therefore all jobs are filmed in High Definition (HD). Our HD cameras are either 1920x1080P, 1440x1080i, or 720x30p.

A standard DVD provides only 4.7 GB of space and therefore the high definition footage is compressed to fit onto a standard DVD. Although the edited job is compressed, the DVD's will be of very high quality. We produce the highest quality DVD's available in the marketplace.

A Blu-Ray DVD provides a minimum of 25 GB of storage space and accordingly requires only minimal/no compression. The less compression the better the image resolution. Our high-end cameras, editing systems, and software, ensure that you will receive the highest quality Blu-Ray available.

* Any/All "free" copies provided with your package will be standard DVD's. Only the number of copies you specify on this form will be produced on Blu-Ray.
